OBJECTIVE

Looking for an opportunity to contribute my skills in software development while learning and growing with a forward-thinking organization. I'm eager to take on challenges, work on impactful projects, and add value through my technical expertise and dedication

SKILLS

Java, Python, Data Structures and Algorithms, HTML, CSS, JavaScript, Angular, Bootstrap, Spring Boot, MySQL, MongoDB, Git, GitHub, Postman, Prompt Engineering.

PROJECT UNDERTAKEN

Parking Space Finder Web App (Domain project):
A web-based application that helps users efficiently find and reserve parking spots. Features include real-time availability, seamless booking, and payment integration
Technologies: Angular (Frontend), Spring Boot (Backend), MySQL (Database)
Deployed At: https://parking-finder-app.vercel.app/

Faculty Scheduling System
A platform designed to facilitate student-teacher interaction by providing students access to faculty timetables. This system helps students identify faculty availability for clarifications on subject-specific doubts.
Technologies: HTML, CSS, Python, Flask, MySQL
Deployed At: https://facultyscheduling.onrender.com/

Personal Portfolio Website
A professional website showcasing skills, projects, and experience as a software developer. Features a clean, responsive design and an intuitive user interface.
Technologies: Angular
Deployed At: https://gayatripisya.vercel.app/

EDUCATION

B. Tech | Centurion University of Technology and Management | 2022-2026 Bachelor Degree in Computer Science Engineering with 8.9 CGPA (3rd Year).
